Existing shared satellite phase/orbit updates do not resolve these curves
Same causal priors and receiver means; all points retained; incumbent gates also fail after projection
DS26-0265 / c0 — both additions rejected
Original marginal model: 111.0 Hz
Shared satellite posterior means: 119.8 Hz
Target residual (Hz)
Scan time (s)
DS26-0265 / fitted_c — both additions rejected
Original marginal model: 110.2 Hz
Shared satellite posterior means: 117.9 Hz
Target residual (Hz)
Scan time (s)
DS26-0223 / c0 — both additions rejected
Original marginal model: 120.5 Hz
Shared satellite posterior means: 119.3 Hz
Target residual (Hz)
Scan time (s)
DS26-0223 / fitted_c — both additions rejected
Original marginal model: 119.2 Hz
Shared satellite posterior means: 118.9 Hz
Target residual (Hz)
Scan time (s)
