The full parent does not remove the target correction
Dashed curves use D-fitted physical modes, not independently calibrated orbit corrections
c = 0: all29 points; no source trimming
c = 0: old-only radio mean, before D
Fitted c: all29 points; no source trimming
Fitted c: old-only radio mean, before D
Full parent nominal
Full parent + D-fitted modes
Old 480-point cavity nominal
Old 480-point cavity + D-fitted modes
Full parent
Old 480-point cavity
Profile residual (Hz)
Radio mean (Hz), inherited graph gauge
Scan time (s)
